- I** Harmonised procedures for research data services delivery across countries
- M** Coordination with other initiatives to achieve harmonisation for an inclusive EOSC
- P** Full understanding of the state of national initiatives and computing and data services, supporting consolidation
- A** Increased FAIR data uptake at national levels and across scientific communities and borders
- C** Launch of new non-commercial transnational services in the EOSC Portal
- T** Active stakeholder community of EOSC supporters in each country
- S** New viable business models for the sustainable provision of transnational services

Workplan

- ★ *Obj.: Support the EOSC implementation leveraging National Initiatives...*
 - ★ Strong emphasis on National Initiatives, perceived as the cornerstone of EOSC (and its sustainability)

- ★ Project's workplan tackles both **organisational** and **technical** issues using a mix of study, coordination, research and demonstration, training and service activities:
 - ★ **Analyze** the state of the art of National Initiatives and computing/data services
 - ★ **Consolidate** National Initiatives, Harmonize policies, engage with all EOSC-related stakeholders
 - ★ **Coordinate** with other initiatives (especially "sister" projects)
 - ★ **Promote** uptake of FAIR practices
 - ★ **Enable access** to trans-national services through EOSC portal
 - ★ 9 use cases selected, based on readiness level, trans-national and/or cross-community nature
 - ★ **Further use cases will be collected and supported later on**
 - ★ Validate and operate services in a production environment, propose viable business models

National Initiatives survey

**Launched:
3rd October 2019**

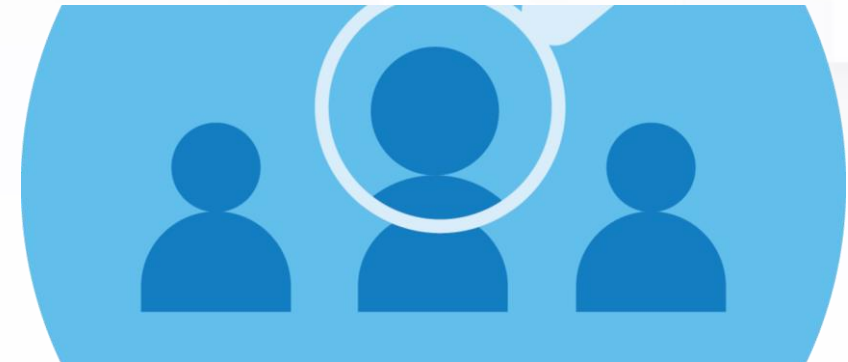

Areas covered

- Business models, SLAs and user support
- Access policies, authorization and authentication models, privacy and legal aspects
- Data management and certification
- Communities, Services and Usage

Targets

Lists of identified recipients within 4 distinct groups

- e-Infrastructures (data repositories/archives, digital archives of national museums, data/computing centres, grid infrastructure, HPC's, NREN's)
- Research Infrastructures (of national relevance)
- Funding bodies
- Universities

Deadline: end October

More on the National Initiatives survey

- ★ Activity led by University of Vienna (Lisa Hönegger)
 - ★ Designed by a multi disciplinary team led by experts in social sciences
 - ★ Opened for early feedback from other projects (coverage of topics, structure, clarity, terminology, phrasing)
 - ★ Before going live, tested with test subjects using methods of cognitive pre-testing
- ★ Different target groups receive different sets of questions
 - ★ Respondents can be contacted for follow-up questions
 - ★ Consent form to be signed by respondent (covering internal usage and cross project usage)
 - ★ Results will be pseudonymized (name/key files handled and in possession by EOSC-Pillar (UNIVIE))
- ★ Use of the collected targets planned for a second round of questions
- ★ Survey and methodology are property of EOSC-Pillar but can be used, under CC-BY license, by other projects

Get involved

- ★ Have yourself “captured” by the questionnaire
- ★ Help us mobilize the different EOSC stakeholders
 - ★ Funding bodies: strategy and incentives
 - ★ E-Infrastructures: training, use cases, support to integration
 - ★ “open call” for new communities will open ~end 2020
 - ★ Research Infrastructures: interoperability, cross-domain collaboration, common services
 - ★ Universities: make your service discoverable, discuss curricula and incentives
